

BSE India Corporate Data Products

Access to India's largest corporate data repository

BSE India, the oldest exchange in Asia, is home to over 5,300 listed Indian companies, making it the largest marketplace in the world in terms of number of companies listed. As part of on-going disclosure and regulatory compliance, companies are required to file corporate disclosures with the BSE.

BSE India Corporate Data Products provide clients with access to the largest repository of corporate data for India's listed companies.

Corporate Announcements

- These are filings by companies on events which are likely to have impact on the company's share prices
- In case of longer announcements or announcements with larger size content, a link to the PDF version of the original announcement is also provided

Shareholder Pattern (quarterly)

- Data is provided in the SEBI (Security and Exchange Board of India) mandated format as submitted by the companies
- Summary of holdings of various types of shareholders in the company as on the last day of the quarter
- Complete details of holdings by promoters (controlling shareholders) and holdings of over 1% by non-promoter shareholders

Financial Results (quarterly, half-yearly and yearly)

- Financial results submitted by listed companies in SEBI required format
- Provides standalone results of the companies that have submitted the results

Corporate Actions

- Information on Corporate Actions in XML format over the Internet

Data availability

The Corporate Data Products are delivered in XML format and made available for download via a secure Internet connection. Corporate Data Products are provided either as continuous (intra-day) or end of day dissemination.
