A General Provisions Non-Display Price List

For the Usage Type Non-Display Information Usage the stated fees in the Price List are to be paid by the Contracting Party.

All prices stated are before value-added tax (VAT).

Information Products are colour-coded to highlight their quality levels. The differences between these levels are set out in the following table.

Product Groups

Premium	<ul style="list-style-type: none"> ▪ Real-Time Analytics ▪ Information Products with the most granular order book data ▪ Lowest latency
Ultra	<ul style="list-style-type: none"> ▪ Advanced Information Products ▪ Un-netted pre-trade¹⁾ and trade data ▪ Very low latency
Core	<ul style="list-style-type: none"> ▪ Regular Information Products ▪ Netted pre-trade¹⁾ and un-netted trade data ▪ Low latency
MiFiD II – Disaggregated Information Products	<ul style="list-style-type: none"> ▪ Information Products offered by Deutsche Börse AG relating to Art. 10 of Delegated Act (EU) Number 2017/567

1) Netted pre-trade information provides bids and offers at specified time intervals; un-netted pre-trade information provides all bids and offers (up to the pre-defined order book depth) as soon as they occur.

Deutsche Börse AG reserves the right to change content and prices of the Information Products in accordance with the Non-Display Agreement.

If Licensed Information is directly or indirectly procured via Deutsche Börse AG's CEF[®] Core Multicast Systems, the content of the Information Products may be limited.

B Non-Display Information Usage

B.1 General Provisions Non-Display Licence Fees

The Non-Display Licence Fees are billed on the basis of the following Customer Categories, which are determined through the intended scope of use: (i) Trading as Principal, (ii) Brokerage, (iii) Trading Platform, (iv) Index Calculation and (v) Other Application Usage. The term 'trading based activities' comprises of the Customer Categories (i) to (iii). The term "other activities" comprises of the Customer Categories (iv) and (v).

Fees for trading based activities are determined by a tiered model comprising

- (i) Trading as Principal or Brokerage (Tier 3, lowest level)
- (ii) Trading as Principal and Brokerage (Tier 2) and
- (iii) operating one or more Trading Platform(s) (Tier 1, highest level).

Each higher level includes the Usage of the previous level and billing will be rendered based on the relevant tier. Other activities supplement trading based activities and will be charged separately:

- Index Calculation, and
- Other Application Usage.

Non-Display Licence Fees apply once per Contracting Party per licenced Information Product per category (see above) per month if not otherwise specified.

The remuneration of the Non-Display Licenses applicable for trading based activities depend on the number of Devices, which according to the definition in Section 1 of the General Terms and Conditions to the Non-Display Agreement of Deutsche Börse AG use Information for Non-Display purposes. These are subdivided in four price levels: (i) Entry: 1-5 Devices, (ii) Medium: 6-10 Devices, (iii) Plus: 11-30 Devices, (iv) Unlimited: if > 30 Devices or the number of Devices cannot be controlled or specified or only the unlimited category is available. For other activities, an unlimited usage is offered without billing on an Unit of Count basis.

Alternatively to a billing based on the Unit of Count "Device", a lump-sum is available, which comprises all Customer Categories for one Information Product with unlimited scope of use (see Section B.3 Non-Display Enterprise Licence Fees).

Non-Display Licence Fees shall be remunerated cumulatively if not otherwise specified.

Trading based activities

Examples of 'trading based activities' include: semi-automated or automated order/quote generation, order pegging, price referencing for trading purposes, smart order routing to facilitate trading, order management, execution management, market making, 'black box' trading, algorithmic trading, program trading and the operation of trading platforms as well as quoting and trading of financial derivatives (including but not limited to futures, options, warrants and certificates linked to the respective underlying market data).

For the Non-Display Information Usage for trading based activities the following categories of Non-Display Licence Fees apply:

Tier 1 – Trading Platform

The operation of a trading platform (i.e. organising a market (irrespective of whether buy-side and sell-side interests are brought together on a bilateral or multilateral basis) establishes a single Customer Category ("Trading Platform"). In particular, this includes operating an exchange, a multilateral trading facility ("MTF"), an organized trading facility ("OTF") or comparable alternative trading system, performing systematic

internalization ("SI") as well as the offering of so-called broker crossing networks, multi-dealer platforms or dark pools. For the avoidance of doubt, the operation of a Trading Platform according to third country provisions (e. g. based on the US Regulation NMS or Regulation ATS) is also subject to this provision.

The Non-Display Licence Fees for Tier 1 include the fees for Tier 2 and 3.

Tier 2 – Trading as Principal and Brokerage

The Customer Category Trading as Principal refers to proprietary trading activities (i.e. trading in own name and for own account; "Trading as Principal"). The Customer Category Brokerage refers to brokerage activities (i.e. trading in another's name for the account of others or trading in own name for the account of others (brokerage business); "Brokerage"). Tier 2 of the Non-Display Licence Fee applicable for trading based activities includes the licence for both, Trading as Principal and Brokerage.

The Non-Display Licence Fees for Tier 2 include the fees for Tier 3.

Tier 3 – Trading as Principal or Brokerage

Tier 3 of the Non-Display Licence Fee applicable for trading based activities requires the selection of either Trading as Principal or Brokerage as a licence. The licence refers only to the selected activity.

Other activities

Index Calculation

The Customer Category Index Calculation refers to the Non-Display Information Usage for the purpose of administration including calculation and dissemination of an index / a benchmark or several indices / benchmarks ("Index Calculation"). This Non-Display Customer Category addresses the administrator who has control over the provision of the benchmark. It does not include the execution of Non-Display Information Usage by the Contracting Party as a vicarious agent (Erfüllungsgehilfe) on behalf of a third party.

Other Application Usage

When licensing this category, Contracting Party is entitled for Non-Display Information Usage for other purposes than trading based activities and/or Index Calculation. This includes but is not limited to the following usages: risk management, profit and loss calculation, portfolio valuation, quantitative analysis, fund administration, fund accounting, portfolio management or instrument pricing. It does not include the execution of Non-Display Information Usage by the Contracting Party as a vicarious agent (Erfüllungsgehilfe) on behalf of a third party.
