

## 360T Essential Data Feed (EDF)

### FX spot data adapted to your individual needs

- The 360T Essential Data Feed (EDF) delivers a comprehensive view of the Spot FX market
- It delivers both the calculated Mid and Bid/Ask Spreads in multiple pricing tiers in variable snapshots
- The EDF data can be categorized into bespoke packages per client requirements to meet their individual needs

#### Benefits

- Agile algorithm calculations, aggregating data based on global time zones
- Ultra-low latency data sampling
- Market data snapshots are as standard delivered every 100 ms (upon request data sampling can be increased to as low as 5 ms)
- Delivery of Mid and average spread in bands of 0.5m, 1m and 5 million notional
- Sourced from 360T's global execution platform, 'Hypersonic', representing disclosed executable prices

#### Data details

- Streaming Mid and Bid/Offer spread in tiers of 0.5m, 1m and 5 million
- 40+ CCY pairs, additional pairs added regularly

#### Access

- The historical EDF data is available through the Deutsche Börse Data Shop subscription service at [www.datashop.deutsche-boerse.com](http://www.datashop.deutsche-boerse.com)
- Sample files are available on request
