

Price List to the CEF[®] Systems Connection Agreement of Deutsche Börse AG

Version 5_0

All prices are stated in terms of monthly fees, exclude sales tax (VAT) and are quoted in Euro (EUR).

A CEF[®] Connection Fees

CEF[®] Accesses

Per CEF[®] Access

1,000.00

A redundant structure with at least two CEF[®] Accesses subscribing to the same Information Products is strongly recommended when establishing a CEF[®] connection.

For some CEF[®] Products separate CEF[®] Accesses are required.

B Prices for CEF[®] Connection Types

The following access possibilities to the CEF[®] Systems are available:

- Single Line (unless a backup line is available via another supply source, e.g. market data vendor or trading system a single line is not recommended).
 - 1 Leased Line is connected to one access point of Deutsche Börse AG.
- Premium (Dual line with dual rail connection)
 - 2 Leased Lines are connected to different geographically separate access points of Deutsche Börse AG. The lines are leased from different providers with separate network infrastructures.
- iAccess Internet Connectivity

A permanent point-to-point VPN Internet connection to an access point of Deutsche Börse AG is established through an Internet Service Provider. No service levels on availability can be warranted.

- Combined Connection

A combination of using a single Leased Line as main and iAccess as backup connection.

- Co-location

On-site connection to CEF® in one or two separate data centers in Frankfurt/Main where Deutsche Börse AG maintains own infrastructure.
