A General Provisions Price List

The fee model applicable to Information Products distinguishes by (i) Usage Type, (ii) Customer Category and (iii) Unit of Count.

The Usage Type specifies which licence is due for Onward Dissemination, Display Usage and/or Non-Display Information Usage and the respective fees that are payable. Customer Categories cover the Contracting Party's and/or the Subscriber's intended purpose of use or the customer type. The scope of usage is determined by Units of Count.

The fees included in the Price List are to be paid by the Contracting Party.

Distribution Licence Fees, Data Fees, Non-Display Licence Fees and CFD Licence Fees are payable on a cumulative basis, if not stated otherwise in the Price List.

All prices stated are before value-added tax (VAT).

Information Products are colour-coded to highlight their quality levels. The differences between these levels are set out in the following table.

1) Netted pre-trade information provides bids and offers at specified time intervals; un-netted pre-trade information provides all bids and offers (up to the pre-defined order book depth) as soon as they occur.

Deutsche Börse AG reserves the right to make changes to content and prices of the Information Products in accordance with the Market Data Dissemination Agreement.

If Licensed Information is directly or indirectly procured via Deutsche Börse AG's CEF[®] Core Multicast Systems, the content of the Information Products may be limited.

B Onward Dissemination

B.1 General Provisions Distribution Licence Fees

Distribution Licence Fees apply for the right of Onward Dissemination of Licensed Information. Distribution Licence Fees are charged on the basis of the individual Customer Categories. They apply once per Contracting Party per Information Product per month if not otherwise specified. A distinction is made between the Customer Categories within the meaning of Section A para.1: Vendors, Sub-Vendors, Central Institutes of a Banking Group and Web Hosting Providers.

For Distribution Licence Fees the fee liability commences upon receiving the information, at the latest on the start date specified by the Contracting Party in accordance with Section 4.1 of the General Terms and Conditions to the Market Data Dissemination Agreement. Distribution Licence Fees will be charged to the Contracting Party monthly in advance. Such Distribution Licence Fees are not refundable upon termination of the Market Data Dissemination Agreement during the current calendar month.

C Display Information Usage

Data Fees are charged for the following Customer Categories: (i) general Professional Usage, (ii) Professional Usage regarding the Provision of News Services, (iii) Professional Usage of a TV Ticker, and (iv) Private Individuals.

Fees charged for Customer Categories (i) to (iii) are governed by Section C.1, Fees for (iv) Private Individuals are governed by Section C.2.

Data Fees per Information Product are invoiced on the basis of the Units of Count Access ID, Physical User ID or per individual price quotes (for Private Individuals), provided that no Lump-Sum has been chosen. In case the Access ID is chosen as Unit of Count, each access to Information is billable unless no exception applies in accordance with Section 14.10 a) of the General Terms and Conditions to the Market Data Dissemination Agreement of Deutsche Börse AG.

If the Physical User ID is used as the Unit of Count, a User's total accesses to an Information Product in accordance with Section 14.10 b) of the General Terms and Conditions to the Market Data Dissemination Agreement of Deutsche Börse AG can be reported on a consolidated basis. The fee payable by the Contracting Party in this case will be determined by the number of Users. If a fee is determined by individual price quote, the fee for the quote will be applied. An individual price quote is defined as instrument per ISIN per trading venue.

A choice can be made between the above-mentioned Units of Count. If Physical User ID is to be selected as the Unit of Count, the requirements of Section 14.10 b) of the General Terms and Conditions to the Market Data Dissemination Agreement of Deutsche Börse AG must be met before making the choice. The use of Access ID is subject to the requirements of Section 14.10 a) of the General Terms and Conditions to the Market Data Dissemination Agreement of Deutsche Börse AG.

The fee liability for Data Fees commences upon the Entitlement to the Information by the Contracting Party or its Subscribers or upon the feasibility to access the information. The Contracting Party is charged Data Fees as soon as the Reporting is available in accordance with Section 14 of the General Terms and Conditions to the Market Data Dissemination Agreement of Deutsche Börse AG.

D Non-Display Information Usage

D.1 General Provisions Non-Display Licence Fees

The Non-Display Licence Fees are billed on the basis of the following Customer Categories (in accordance with Section A para.1), which are determined through the intended scope of use: (i) Trading as Principal, (ii) Brokerage, (iii) Trading Platform, (iv) Index Calculation and (v) Other Application Usage. The term 'trading based activities' comprises of the Customer Categories (i) to (iii). The term "other activities" comprises of the Customer Categories (iv) and (v).

Fees for trading based activities are determined by a tiered model comprising

- (i) Trading as Principal or Brokerage (Tier 3, lowest level)
- (ii) Trading as Principal and Brokerage (Tier 2) and
- (iii) operating one or more Trading Platform(s) (Tier 1, highest level).

Each higher level includes the Usage of the previous level and billing will be rendered based on the relevant tier. Other activities supplement trading based activities and will be charged separately:

- Index Calculation, and
- Other Application Usage.

Non-Display Licence Fees apply once per Contracting Party per licenced Information Product per category (see above) per month if not otherwise specified.

The remuneration of the Non-Display Licenses applicable for trading based activities depend on the number of Devices, which according to the definition in Section 2 of the General Terms and Conditions of Deutsche Börse AG use Information for Non-Display purposes. These are subdivided in four categories: (i) Entry: 1-5 Devices, (ii) Medium: 6-10 Devices, (iii) Plus: 11-30 Devices, (iv) Unlimited: more than 30 Devices. For Other activities, an unlimited usage is offered without billing on an Unit of Count basis. Alternatively to a billing based on the Unit of Count "Device", a lump-sum is available, which comprises all Customer Categories for one Information Product with unlimited scope of use (see Section D.3 Non-Display Enterprise Licence Fees).

Non-Display Licence Fees shall be remunerated cumulatively if not otherwise specified.

Trading based activities

Tier 1 – Trading Platform

The operation of a trading platform (i.e. organising a market (irrespective of whether buy-side and sell-side interests are brought together on a bilateral or multilateral basis)) establishes a single Customer Category ("Trading Platform"). In particular, this includes operating an exchange, a multilateral trading facility ("MTF"), an organized trading facility ("OTF") or comparable alternative trading system, performing systematic internalization ("SI") as well as the offering of so-called Broker Crossing Networks or Dark Pools. For the avoidance of doubt, the operation of a Trading Platform according to third country provisions (e. g. based on the US Regulation NMS or Regulation ATS) is also subject to this provision.

The Non-Display Licence Fees for Tier 1 include the fees for Tier 2 and 3.

Tier 2 – Trading as Principal and Brokerage

The Customer Category Trading as Principal refers to proprietary trading activities (i.e. trading in own name and for own account; "Trading as Principal"). The Customer Category Brokerage refers to brokerage activities (i.e. trading in another's name for the account of others or trading in own name for the account of others

(brokerage business); "Brokerage"). Tier 2 of the Non-Display Licence Fee applicable for trading based activities includes the licence for both, Trading as Principal and Brokerage.

The Non-Display Licence Fees for Tier 2 include the fees for Tier 3.

Tier 3 – Trading as Principal or Brokerage

Tier 3 of the Non-Display Licence Fee applicable for trading based activities requires the selection of either Trading as Principal or Brokerage as a licence. The licence refers only to the selected activity.

Other activities

Index Calculation

The Customer Category Index Calculation refers to the Non-Display Information Usage for the purpose of administration including calculation and dissemination of an index / a benchmark or several indices / benchmarks ("Index Calculation"). This Non-Display Customer Category addresses the administrator who has control over the provision of the benchmark. It does not include the execution of Non-Display Information Usage by the Contracting Party as a vicarious agent (Erfüllungsgehilfe) on behalf of a third party.

Other Application Usage

When licensing this category, Contracting Party is entitled for Non-Display Information Usage for other purposes than trading based activities and/or Index Calculation. This includes, but is not limited to the following usages: risk management, profit and loss calculation, portfolio valuation, quantitative analysis, fund administration, fund accounting, portfolio management or instrument pricing. It does not include the execution of Non-Display Information Usage by the Contracting Party as a vicarious agent (Erfüllungsgehilfe) on behalf of a third party.

D.4 Special Provisions Non-Display Licence Fees

Netting

| | Description and Prices | Supplemental Provisions |
|---|--|---|
| Netting with regard to Other Application Usage by Vendors | Other Application Usage by Vendors does not need to be licensed if the Vendor already pays Real-time Distribution Licence Fees for the respective Information Product and the Non-Display Information Usage serves only for the purpose of extending the onward dissemination of Information with simple analytics and calculations. | The Contracting Party has to inform Deutsche Börse AG of its Information Usage in advance and needs to obtain the written approval from Deutsche Börse AG that the respective Information Usage does not require further licensing. |

E CFD Information Usage

E.1 General Provisions CFD Licence Fees

CFD Licence Fees apply for CFD Information Usage and consist of a Basic Licence Fee, a White Labelling fee and of a Numbers of Users fee.

The Basic Licence Fee shall apply if the respective Information Product is used within a CFD Information Usage and includes the right to provide the calculated prices to less than 1000 Users.

A fee is payable on a cumulative basis in addition to the Basic Licence Fee if the calculated prices within a CFD Information Usage are provided to Users via White Labelling Partners. For this purpose, the following categories may be licensed:

- Tier 4 - Licence includes the right of provision to up to 5 White Labelling Partners.
- Tier 3 - Licence includes the right of provision to up to 10 White Labelling Partners.
- Tier 2 - Licence includes the right of provision to up to 15 White Labelling Partners.
- Tier 1 - Licence includes the right of provision to more than 15 White Labelling Partners.

A fee for the number of Users is payable on a cumulative basis in addition to the Basic Licence Fees if the calculated prices within a CFD Information Usage are provided to more than 1,000 Users. The following sliding scale applies:

- Tier 4 - Licence includes the right of provision to up to 2,000 Users.
- Tier 3 - Licence includes the right of provision to up to 5,000 Users.
- Tier 2 - Licence includes the right of provision to up to 10,000 Users.
- Tier 1 - Licence includes the right of provision to more than 10,000 Users.

The number of White Labelling Partners and the number of Users are Units of Count within the meaning of Section A para.1. If Onward Dissemination to API Customers takes place in accordance with the table in Section E.3, in which above listed Units of Count can not be determined, the fees in Section E.3 based on the Unit of Count API Customers apply.

For the purposes of this Section E, a User is defined as a person or entity who during the respective month at least at one time held a position in an instrument where the price is calculated based on Deutsche Börse AG Information. If a User has multiple accounts with the Contracting Party, the Contracting Party is allowed to net these accounts with regard to the CFD Licence Fees, if it can be demonstrated that the accounts belong to the same User. Such netting is not permitted if the above-mentioned requirements are not fulfilled. The number of Users has to be indicated when placing the order in MD+S interactive. The number of Users per month has to be demonstrated also for the past on request or in case of an Audit.

For CFD Information Usage of other Information Products than those specified in Section E.2, Deutsche Börse AG has to be contacted in advance. The terms applicable to CFD Information Usage are specified in Section VI of the General Terms and Conditions to the Market Data Dissemination Agreement of Deutsche Börse AG.

E.3 Special Provisions CFD Licence Fees

Special Fees, Netting

| | Description and Prices | Supplemental Provisions |
|--|---|--|
| Users for whom the Contracting Party already pays Data Fees | If the Contracting Party already pays Data Fees for a particular User for the relevant Information Product, this User does not need to be taken into account for the CFD Licence Fees. | The number of Users has to be taken into account for the order via the online order form in MD+S interactive. The number of Users per month has to be demonstrated also for the past on request or in case of an Audit. |
| Non-Display Information Usage in connection with CFD Information Usage | If the Contracting Party in relation with its CFD Information Usage is also subject to the Non-Display Information Usage (NDIU) licence, e.g. for the internal risk management of its CFD business, this NDIU Internal Usage is covered by the CFD Licence Fees. | The Contracting Party has to inform Deutsche Börse AG of a respective Non-Display Information Usage in advance and has to obtain from Deutsche Börse AG the written approval that the internal Non-Display Information Usage is covered by the licence for CFD Information Usage. The Contracting Party needs to demonstrate on request or during an Audit also for the past that the internal Non-Display Information Usage has solely taken place in connection with the CFD Information Usage. |
| Netting Distribution Licence Fees and CFD Licence Fees | Where a Contracting Party is subject to both Distribution Licence Fees and the Basic Licence Fee of CFD Licence Fees, the higher of both fees shall apply. In addition, the Contracting Party has to pay Data Fees and/or CFD Licence Fees (variable fees for White Labelling and/or Users, Tier 1-4) if applicable. | Will be taken into account for the determination of the monthly remuneration within the online order form in MD+S interactive. |
| Usage of more than one Information Product for the calculation of prices for one instrument | Where the CFD Information Usage includes more than one Information Product for the price calculation of a single instrument, the Contracting Party shall only pay the CFD Licence Fees for the Information Product with the highest price according to the Price List. | The Contracting Party needs to inform Deutsche Börse AG about the CFD Information Usage with multiple Information Products in advance and needs to agree with Deutsche Börse AG the licensing process. |
| API Customers | CFD Information Usage, where the Contracting Party provides calculated prices to third party platforms without being able to determine the number of Users or White Label Partners of those third party platforms (which regularly will be the case when providing the calculated prices via an application programming interface (API) or data feed), is subject to: <ul style="list-style-type: none"> a. the conclusion of a Market Data Dissemination Agreement by the provider of the third party platform with DBAG and the according remuneration of the applicable CFD Licence Fees in accordance with the Price List; or b. the notification of DBAG by the Contracting Party of respective third party platforms which shall be provided with calculated prices as part of its CFD Information Usage. The Contracting Party has to remunerate the licence fee for the relevant Information Products as specified in the table "API Customers – Scale Prices" for each third party platform. In addition, the Contracting Party falls automatically under Tier 1 with regard to the number of Users and has to pay the corresponding Tier 1 CFD Licence Fees regardless of the actual number of Users. <p>A sliding scale for other Information Products (e.g. Regional Exchanges Germany) follows the same logic.</p> | Order via online order form in MD+S interactive. Will be taken into account when determining the monthly applicable CFD Licence Fees. |
